

FOR ESTABLISHED BRANDS

Built for brands with more than one front door.

Multi-site operators, franchise
groups, and established retailers.
One agent per site, or one
orchestrator across all of them.

NOHUMA is a managed Non-Human Intelligence,
built and operated in the UK by Human Architect.

THE WHY

A large brand's problem is volume, not ambition.

More sites means more missed enquiries, more inconsistent replies, more reconciliation drift. The work multiplies with every location. A human hire per site does not scale. An agent per site does.

THE PILOT

Give us your busiest inbox for 90 days.

One site. One workflow. Drafts only until you trust it. Live in 48 hours, cancel any time. No transformation programme, no procurement theatre, no six-month discovery.

Measured against your own baseline in week one. No claimed savings we cannot show you.

WHERE IT LANDS

The workflows that multiply with scale.

- Multi-store customer enquiry triage and first response
- Trade-in and stock discrepancy reconciliation (advisory flagging)
- Franchisee coordination and comms
- Returns, refunds, and exception handling

Rules-based, high-volume, low blast-radius. Fundable as a pilot, not a programme.

THE PROOF BAR

We do not ask you to trust a brochure.

Most enterprise AI pilots never ship. Ours is live in 48 hours and stays live because we run it, not you. A named operator, a guarantee, and your own timesheet as the measure.

WHITE-LABEL

Your brand. Your franchisees. Our agent.

Offer NOHUMA to your network under your name, single tier, no recruitment. What was a cost you removed becomes a revenue line your franchisees pay for. B2B2B does not churn.

THROUGH PARTNERS

We reach big brands through the firms they already trust.

Systems integrators, MSPs, and agency partners carry NOHUMA into established accounts. They bring the relationship and the credibility. We bring the agent that ships. A reseller programme, not a cold siege.

THE INVITATION

One site. 90 days.

A managed Non-Human Intelligence on your busiest workflow. Live in 48 hours, drafts only until trusted, cancel any time.

NOHUMA, managed by Human Architect. Flat £5,000 a month per workflow. Self-hosted, your data stays yours.
