

OWL

FOR ARSENAL FC

MANAGED AI RESEARCH ENGINEER

Embedded with your First Team analysis department.

Builds, deploys, and supports — 48 hours.

AUGMENTATION, NOT REPLACEMENT.

RESEARCH → PRODUCTION

Not just models. Software coaches actually use.

- > Turn research into production applications.
- > Deploy ML into matchday workflows.
- > Bridge analysts and engineering.
- > Validated against real fixtures.

FULL-STACK APPLICATION

Design, develop, maintain data-driven applications for club stakeholders.

- > Python backend with SQL pipelines.
- > React/TypeScript frontends for analysts and coaches.
- > Scalable, reliable, efficient systems.
- > Evolves with club data and workflows.

AUTOMATED ANALYSIS

Streamline critical processes using engineering and applied ML.

- > Event tagging and clip generation.
- > Scouting shortcuts and opponent profiles.
- > Repetitive analyst labour removed.
- > Quality control built into every pipeline.

ANALYST COLLABORATION

Deeply understand analyst processes. Plan and implement solutions.

- > Translates coaching needs into engineering tasks.
- > Proactively refines existing workflows.
- > Bridges data and decisions.
- > Adapts to training and matchday intensity.

APPLIED AI SPECIALIST

AI techniques applied to football analysis. Not LLMs everywhere.

- > xG/xA, passing networks, PPDA, transition metrics.
- > Set-piece optimisation and opposition profiling.
- > Computer vision and sequence models where appropriate.
- > R&D translated into production tooling.

MAXIMISE RESEARCH IMP

Grounded in coaching needs. Built for real constraints.

- > Prioritises work that changes decisions.
- > Validates models against known fixtures.
- > Analysts can action outputs immediately.
- > Iterates from match and training feedback.

CAPABILITIES

Confirmed components. No black-box claims.

PYTHON / SQL / JS

Full-stack apps with React/TypeScript frontends.

PYDATA

numpy, pandas/polars, matplotlib/Altair for analysis and visuals.

COMPUTER USE

Operates software, fills forms, generates reports.

MESSAGING

Telegram, iMessage, Slack for analysts and coaches.

FOOTBALL INTELLIGENCE

How OWL turns raw inputs into coaching decisions.

- > INPUT: Match footage, event data, tracking, scouting exports.
- > PROCESS: Feature extraction, model inference, memory retrieval.
- > REASONING: Pattern matching, historical comparison, constraint checking.
- > OUTPUT: Visualisations, reports, briefing cards, explanations.
- > DELIVERY: Coach dashboard, Telegram/iMessage/Slack, archive.

USE CASES

Built for elite football operations.

- > MATCH ANALYSIS: Post-match insight cards within 60 minutes.
- > SCOUTING SHORTCUTS: Automated tagging, clip search, opponent profiles.
- > PERFORMANCE BRIEFS: Weekly readiness and load digests for coaches.
- > SET-PIECE DESIGN: Corner/free-kick threat maps by zone.
- > STAFF SUPPORT: Telegram/iMessage/Slack bot for analysts.

48-HOUR DEPLOYMENT

From discovery call to first briefing card. No recruiting delay.

0-4H Access provisioning: data exports, video, schemas.

4-12H Schema mapping and club-specific alignment.

12-24M Warm-start on last season data.

24-36M Validation against known fixtures.

36-48G Go-live. First briefing card sent.

INTEGRATION

No new logins. No new workflows.

- > TELEGRAM / iMessage: Threaded comms with analysts and coaches.
- > SLACK: Embedded support in existing channels.
- > EMAIL: Digest and alert distribution.
- > DASHBOARD: Coach-facing web app for matchday.

PROOF

Verified public signals only.

- Managed AI employee model is live. Confirmed client revenue.
- Agent builds and onboards client systems autonomously.
- Customer support runs without human intervention.
- Stack proven: agent mail, phone, card, observability, vault.
- B2B2B path proven: resell lowers churn.

WHAT OWL WILL NOT DO

Honest boundaries.

- Replace head of analysis or coaching staff.
- Guarantee match outcomes without data and buy-in.
- Operate without secure access to exports.
- Make medical or IR decisions.
- Control player access or dressing-room integration.

SECURITY

Enterprise posture from day one.

- Dedicated environment per client. No shared tenants.
- Encryption at rest and in transit.
- Role-based access. Audit log for every action.
- Performance data never leaves your environment.
- On-prem or VPC option available.

SUPPORT

Real humans behind the system.

- Named success contact.
- Weekly delivery review with analysts.
- Same-day critical fix SLA.
- Knowledge capture from every interaction.

IN SCOPE

What we own together.

- Data ingestion from existing club exports.
- Model deployment, tuning, and validation.
- Insight delivery into existing comms channels.
- Weekly improvements driven by real requests.

TERMS

Simple, non-binding starter terms.

- Minimum term: 3 months.
- Exit: 30-day notice after minimum term.
- IP: client owns data and outputs; OWL owns the system.
- Price lock: guaranteed for the first 12 months.

FAQs

Q: Q: Can you integrate with our existing video platform?

A: A: Yes — exports, timestamps, metadata.

Q: Q: Is our data used to train shared models?

A: A: No. Your data stays in your environment.

Q: Q: What happens after 48 hours?

A: A: Live operation plus weekly iterations.

Q: Q: Is this a chatbot?

A: A: No. Production AI systems embedded with your analysts.

NEXT STEP

Only 3 Club/Organization slots left for Q3.

Next Single Team cohort starts Monday.

Lock your price before Q4 launch.
