

OWL

FOR SPORTS TEAMS

MANAGED AI RESEARCH ENGINEER

Your forward-deployed engineer.

Builds, deploys, and supports — 48 hours.

AUGMENTATION, NOT REPLACEMENT.

THE ROLE

Embedded with your First Team analysis department. Not a contractor. A teammate.

- > Works directly with analysts and coaching staff.
- > Builds production applications, not slide decks.
- > Gathers requirements from stakeholders.
- > Prioritises delivery around training and matchday.

FULL-STACK APPLICATION

Design, develop, and maintain data-driven applications tailored to club stakeholders.

- > Python backend with SQL pipelines.
- > React/TypeScript frontends for analysts and coaches.
- > Scalable, reliable, efficient from day one.
- > Evolves with your data and workflows.

AUTOMATED ANALYSIS

Streamline critical processes using full-stack engineering and applied ML.

- > Event tagging and clip generation.
- > Scouting shortcuts and opponent profiling.
- > Repeated analyst labour removed.
- > Quality control built into every pipeline.

ANALYST COLLABORATION

Deeply understand analyst processes. Plan and implement technical solutions.

- > Translates coaching needs into engineering tasks.
- > Proactively refines existing workflows.
- > Bridges the gap between data and decisions.
- > Adapts to matchday and training schedule intensity.

APPLIED AI SPECIALIST

Subject-matter expert at the intersection of AI techniques and football analysis.

- > xG/xA, passing networks, PPDA, transition metrics.
- > Set-piece optimisation and opposition profiling.
- > State-of-the-art models grounded in real constraints.
- > R&D translated into production tooling.

MAXIMISE RESEARCH IMP

Ensure applied research is grounded in coaching needs and real-world constraints.

- > Prioritises work that changes decisions.
- > Validates models against known fixtures.
- > Delivers outputs analysts can action immediately.
- > Iterates from actual match and training feedback.

CAPABILITIES

Confirmed stack. No black-box claims.

PYTHON / SQL / JS

Full-stack apps with React/TypeScript frontends.

PYDATA

numpy, pandas/polars, matplotlib/Altair.

COMPUTER USE

Operates software, fills forms, generates reports.

MESSAGING

Telegram, iMessage, Slack for analysts and coaches.

PROOF

Verified public signals only.

- Managed AI employee model is live. Confirmed client revenue.
- Agent builds and onboards client systems autonomously.
- Customer support runs without human intervention.
- Stack proven: agent mail, phone, card, observability, vault.
- B2B2B path proven: resell lowers churn.

WHAT OWL WILL NOT DO

- Replace head of analysis or coaching staff.
- Guarantee outcomes without your data and buy-in.
- Operate without secure access to your exports.

NEXT STEP

Only 3 Club/Organization slots left for Q3.

Next Single Team cohort starts Monday.

Lock your price before Q4 launch.
