THE CONSTRUCTION INCOME DOSE

Who to close. How much you make.
Exactly what to say. Step by step.

Companion to "Who To Approach In UK Construction."
Built by OWL for Human Architect · 9 Aug 2026.
£5,000/month per client. Every company named is real.
Buyer names marked ✓ are confirmed from live sources
this session; others are roles to find (method included).

YOUR MONEY MODEL

One price. Infinite seats.

Every client pays the same **£5,000/month**. Your income is simply clients $\times$ £5k. Enterprise buyers often take multiple seats (per desk / per region), so one logo can be 5–10 $\times$ £5k.

1 client	£5,000 / mo
3 clients	£15,000 / mo
5 clients	£25,000 / mo
10 clients	£50,000 / mo
20 clients	£100,000 / mo

Annualised: 5 clients = £300k/yr · 10 = £600k/yr · 20 = £1.2m/yr. Delivery cost is low (client VPS + model + light oversight, roughly £500–£1,500/client) — your contribution margin stays high. Model the exact cost once the first client is live.

Speed beats size at first

- 1 Month 1–2:** close 1–2 SME / professional clients (Segments 1 & 7). Shortest cycle, fastest cash.
- 2 Month 3–4:** add 2–3 more + first enterprise pilot (Segments 2–6).
- 3 Month 5–6:** 8–10 clients = £40k–£50k/mo. Enterprise logos compound via seats.
- 4 Month 7–12:** 15–20 clients, white-label to resellers, recurring £75k–£100k/mo.

SME close in ~30–60 days. Enterprise in ~90–180. Start where the cycle is shortest; use those logos to open enterprise doors.

Get the name in 10 minutes

- **Companies House:** officers list for Ltd/PLC — real directors, free.
- **Firm website:** "Leadership" / "Our people" page — often has photos + emails.
- **Trade press:** Building, Construction News, FMJ — appointment stories name movers (how I confirmed 4 POIs here).
- **Job ads:** the role you want is usually being hired — the hiring manager's name is in the ad.

Never guess an email from a pattern. Pull the real one. A wrong guess burns the relationship.

One closed SME = £5k/mo, proof, and a reference for the enterprise pitch.

COPY-PASTE OPENERS

Say this. Watch replies.

To an SME founder

"I free founders like you from tender admin and payment chasing with a managed AI employee — £5k/mo, live in 48h, or the first month's free. 20 mins to see your saving?"

To an enterprise bid/BD lead

"Your team loses days to repeat PQQs. We run a managed AI employee that drafts 60–80% from past wins and pre-quals subs. 20-min audit, measured saving, or it's free. Worth a look?"

To an RSL / compliance lead

"Awaab's Law is a clock you're now on. We turn tenant reports into a tracked, compliant workflow with a managed AI employee. 20 mins to see it on your site?"

Keep it short. One ask. One proof point. The guarantee does the closing.

Kill the friction fast

"We already use [software]." → "Good — NHUMA works inside it. It's the operator, not another login."

"Will it send things it shouldn't?" → "Drafts-only by default. Your people approve. Nothing goes out blind."

"What if it doesn't save us money?" → "Day-30: if it hasn't saved more than £5k in your hours, the first month is refunded. Measured, not promised."

"Data security?" → "Isolated client VPS. Your data stays yours and leaves with you on exit."

"Too expensive." → "It's one monthly line replacing 2–3 admin hires you can't recruit anyway (206k worker gap by 2030)."

Every objection has a one-line answer. The guarantee is the backstop.

THE OFFER & NEXT STEP

**£5k/mo. 48h live. Or
it's free.**

Book the bottleneck audit. We map the leaks in your chosen segment and show the £5k saving in writing before you spend a penny.
