

THE NON-HUMAN EMPLOYEE

Your next hire won't be human.

A belief before a product. Why
managed agents exist, and why now.

THE WHY

Your time should not be spent on work a machine can own.

The recurring work draining your week is beneath you. An agent can own it. You stay in the room where judgement matters.

THE ENEMY

**Every lead you miss
while you sleep is a
competitor's
customer by
morning.**

The work does not wait. Quotes go unanswered.
Follow-ups die. An agent is on every channel, at
every hour.

NHI VS CHATBOT

A chatbot waits. A Non-Human Intelligence acts.

ChatGPT answers when prompted. A managed agent owns the workflow: chases leads, triages inboxes, sends reports on a schedule.

THE WINDOW

54%

of UK firms report using AI in 2026. The majority still do not. The gap is the opening.

THE INVITATION

Hire a Non-Human Intelligence.

Twenty minutes. One workflow. A one-page scope statement, no obligation.

NOHUMA is a managed Non-Human Intelligence, built and operated in the UK by Human Architect. Self-hosted, your data stays in your environment.
