

CLIENT FAQ

The questions, plainly.

Six things every buyer asks before
they book the call.

QUESTION

What is NOHUMA?

A managed Non-Human Intelligence: an autonomous agent built, onboarded, and fully operated inside your business for a flat £5,000/month. You never configure the tech.

QUESTION

How fast is it live?

Your agent is live within 48 hours of the scoping call, or the first month is refunded.

QUESTION

What if it doesn't save us money?

If the agent has not saved more than £5,000/month in human hours by day 30, measured against your own timesheet, the first month is refunded.

QUESTION

Is my data safe?

Your data stays within your environment. NOHUMA runs on an isolated client server with scoped access, not blanket permission.

QUESTION

Do I need a technical team?

No. NOHUMA is fully managed. You bring one workflow to a 20-minute call. We build, host, and run the agent.

QUESTION

Can I offer it to my own customers?

Yes. NOHUMA is an optional white-label: your brand, your terms, single-tier. A revenue line, not a cost.

THE INVITATION

Hire a Non-Human Intelligence.

Twenty minutes. One workflow. A one-page scope statement, no obligation.

NOHUMA is a managed Non-Human Intelligence, built and operated in the UK by Human Architect. Self-hosted, your data stays in your environment.
