

OBJECTION & CLOSE

The questions, answered.

The four objections that come up on every call, and the honest answer to each.

OBJECTION 1

Why not just use Claude for £20?

Claude waits for prompts. This owns a workflow. No maternity leave, never clocks out, half the cost of a quality domestic employee, and it does the job, not a chat about the job.

OBJECTION 2

What if it breaks?

One orchestrator, four isolated specialists. If one fails, the blast radius is small. Constant observability across the fleet, and a 48-hour fix commitment.

OBJECTION 3

Is my data safe?

Self-hosted on your own server. Scoped access, not blanket permission. Your data stays yours and is portable on exit. We never train on it.

OBJECTION 4

What if it doesn't work?

Then it is free. Live in 48 hours or the first month is refunded. If it has not saved more than its cost by day 30, measured against your timesheet, the first month is refunded.

THE INVITATION

Hire a Non-Human Intelligence.

Twenty minutes. One workflow. A one-page scope statement, no obligation.

NOHUMA is a managed Non-Human Intelligence, built and operated in the UK by Human Architect. Self-hosted, your data stays in your environment.
