

How it actually works.

One brain, four
specialists, a
stack with its own
desk.

One brain. Four specialists.

01

Outbound

Lead generation and replies.

02

Sales follow-up

Nurture and booking.

03

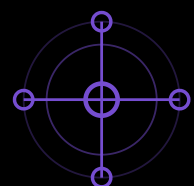

Content

Assets and posts.

04

Support

Fulfilment and handover.

It arrives with its own desk.

01

Its own
computer

02

Its own email

03

Live Telegram
line

04

Your Slack /
Telegram

05

Real tools

06

Simple billing

07

Memory: one
fact, one home

08

Constant
health checks

Your data stays in its own box.

Owl runs on an isolated client server with access scoped only to what the job needs. Your data never leaves your control, and it travels with you if you leave. Self-hosted, portable, private.

Four industries. One workflow each.

01

Trades &
services

02

Clinics & health

03

Law &
professional

04

E-commerce

Live in 48 hours.

The stack is already built.
We deploy it to your server
and hand you a running
workflow within two days. If
we miss, the first month is
free. Speed is what you are
paying for.
